

SAFETY DATA SHEET

1. Identification

I. Identification			
Product identifier	DICHLOROMETHANE, H	PLC	
Other means of identification			
Product code	2484		
CAS number	75-09-2		
Synonyms	METHYLENE CHLORIDE		
Recommended use	professional, scientific and t	technical activities:	other professional, scientific and technical activities
Recommended restrictions	None known.		
Manufacturer/Importer/Supp	lier/Distributor informatio	on	
Manufacturer			
Company name Address	GFS Chemicals, Inc. 800 Kaderly Drive		
	Columbus, OH 43228 United States		
Telephone	Phone Toll Free	740-881-5501 800-858-9682	
	Fax	740-881-5989	
Website E-mail	www.gfschemicals.com service@gfschemicals.com		
Emergency phone number	Emergency Assistance	Chemtrec 800-4	24-9300
2. Hazard(s) identification	on		
Physical hazards	Not classified.		
Health hazards	Acute toxicity, oral		Category 4
	Skin corrosion/irritation		Category 2
	Serious eye damage/eye irr	itation	Category 2A

	,	5,
	Serious eye damage/eye irritation	Category 2A
	Carcinogenicity	Category 1B
	Specific target organ toxicity, single exposure	Category 1
	Specific target organ toxicity, single exposure	Category 3 narcotic effects
	Specific target organ toxicity, repeated exposure	Category 1
Environmental hazards	Not classified.	
OSHA defined hazards	Not classified.	
Label elemente		

Label elements

Storage	Store in a well-ventilated place. Keep container tightly closed. Store locked up.
Disposal	Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Substances

Chemical name	Common name and synonyms	CAS number	%
DICHLOROMETHANE	METHYLENE CHLORIDE	75-09-2	100

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures Inhalation Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a poison center or doctor/physician if you feel unwell. Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get Skin contact medical advice/attention. Wash contaminated clothing before reuse. For minor skin contact, avoid spreading material on unaffected skin. **Eve contact** Immediately flush eves with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists. Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Ingestion Get medical advice/attention if you feel unwell. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms Most important symptoms/effects, acute and may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause delayed redness and pain. Prolonged exposure may cause chronic effects. Indication of immediate Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim medical attention and special under observation. Symptoms may be delayed. treatment needed General information IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire-fighting measures

Suitable extinguishing media Unsuitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2). Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	None known.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop leak if you can do so without risk. Should not be released into the environment. Prevent entry into waterways, sewer, basements or confined areas. Clean up in accordance with all applicable regulations.
	Large Spills: Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use. Put material in suitable, covered, labeled containers. For waste disposal, see section 13 of the SDS.
	Never return spills in original containers for re-use.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not taste or swallow. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Material	Туре	e	Va	alue	
DICHLOROMETHANE (CAS 75-09-2)	STEL	-	12	5 ppm

Other	Wear appropriate c	hemical resistant clo	othing. Use of a	n impervious apron is recomm	ended.
Respiratory protection	limits (where applic	cable) or to an accep an approved respira	table level (in o	entrations below recommended countries where exposure limit rn. Chemical respirator with or	s have not
	-				
Thermal hazards	Wear appropriate t	hermal protective clo	othing, when ne	ecessary.	

Observe any medical surveillance requirements. Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

9. Physical and chemical	properties
Appearance	Clear.
Physical state	Liquid.
Form	Liquid.
Color	Colorless.
Odor	strong characteristic.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	-139 °F (-95 °C)
Initial boiling point and boiling range	103.55 °F (39.75 °C) 101.325 kPa
Flash point	Does not flash by standard methods.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or e	xplosive limits
Flammability limit - lower (%)	15.5 %
Flammability limit - upper (%)	66.4 %
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	58 kPa (77 °F (25 °C))
Vapor density	2.93
Relative density	Not available.
Solubility(ies)	
Solubility (water)	20 g/l
Partition coefficient (n-octanol/water)	1.25
Auto-ignition temperature	1033 °F (556.11 °C)
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	1.33 g/cm3 estimated at 20 °C
Dynamic viscosity	0.43 mPa.s (68 °F (20 °C))
Explosive properties	Not explosive.
Heat of combustion (NFPA 30B)	2.1 kJ/g
Kinematic viscosity	0.3244 mm ² /s estimated
Molecular formula	CH2Cl2
Molecular weight	84.93 g/mol
Oxidizing properties	Not oxidizing.
Percent volatile	100 %
Specific gravity	1.33 at 20 °C
Surface tension	28.12 mN/m (68 °F (20 °C))
VOC	100 %

10. Stability and reactivity

Reactivity

Chemical stability

The product is stable and non-reactive under normal conditions of use, storage and transport. Material is stable under normal conditions.

Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. None known. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	Hydrogen chloride. Phosgene

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause damage to organs by inhalation. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Prolonged inhalation may be harmful.	
Skin contact	Causes skin irritation.	
Eye contact	Causes serious eye irritation.	
Ingestion	Harmful if swallowed.	
Symptoms related to the physical, chemical and toxicological characteristics	May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.	

Information on toxicological effects

Acute toxicity	Harmful if swallowed.		
Product	Species	Test Results	
DICHLOROMETHANE (CAS 75-09	-2)		
<u>Acute</u>			
Inhalation			
LC50	Guinea pig	11600 mg/l, 6 Hours	
		40.2 mg/l, 6 Hours	
	Mouse	14400 mg/l, 7 Hours	
		56.23 mg/l, 7 Hours

DICHLOROMETHANE (C		Cancer	
		-	
DICHLOROMETHANE (C	AS / J-UY-Z)	Reasonably Anticipated to be a Human Carcinogen.	

Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Causes damage to organs. May cause drowsiness and dizziness.
Specific target organ toxicity - repeated exposure	Causes damage to organs through prolonged or repeated exposure.
Aspiration hazard	Not an aspiration hazard.
Chronic effects	Causes damage to organs through prolonged or repeated exposure. Prolonged inhalation may be harmful. Prolonged exposure may cause chronic effects.

12. Ecological information

		not classified as environmentally hazardous. However, this does not exclude the large or frequent spills can have a harmful or damaging effect on the environment.		
Product		Species	Test Results	
DICHLOROMETHANE (CAS	75-09-2)			
Aquatic				
Crustacea	EC50	Water flea (Daphnia magna)	1250 mg/l, 48 hours	
Fish	LC50	Fathead minnow (Pimephales promelas)	140.8 - 277.8 mg/l, 96 hours	
Persistence and degradabili	ty None known.			

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow) 1.25		
Mobility in soil	No data available.	
Other adverse effects	The product contains volatile organic compounds which have a photochemical ozone creation potential.	

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations. Dispose as hazardous waste in compliance with local and national regulations.	
Local disposal regulations	Dispose in accordance with all applicable regulations.	
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company. U080: Waste Methylene chloride	

US RCRA Hazardous Waste U List: Reference

DICHLOROMETHANE (CA	S 75-09-2)	U080
Waste from residues / unused products		ocal regulations. Empty containers or liners may retain some product container must be disposed of in a safe manner (see: Disposal
Contaminated packaging	· · · · · · · · · · · · · · · · · · ·	retain product residue, follow label warnings even after container is uld be taken to an approved waste handling site for recycling or
